WOODRUFF'S

• Cash Nursery

On the Pacific Highway
1½ Miles North of City
Limits Eugene, Oregon

One of our ornamental plantings at
186 West 22nd Street, Eugene,
Oregon.

We Meet Competition
Where Quality is Equal
INFORMATION
READ CAREFULLY

Location— You will find our main Nursery and Floral Gardens on the Pacific Highway 1½ miles North of the city limits of Eugene. We have beautified our frontage with a dainty miniature house, large rockery, pool, rose garden and fine expanse of lawn. Our display in this respect together with the hundreds of partially matured, large size evergreen trees and shrubs makes this an ideal place for a friendly visit. **THIS IS YOUR INVITATION AS VISITORS ARE ALWAYS WELCOME.**

Planting Season— Under ordinary weather conditions, trees and shrubs can be set out after October 1st and as late in the spring as the first of May.

Personal Inspection— We offer a complete assortment of the new as well as the old time favorites in flowering and ornamental parking trees, conifer and broad leaved evergreens, shrubs and rose bushes. Fruit and nut trees, berry plants in large assortment and quantity. Your personal inspection of this stock is invited.

Guarantee of Genuineness, the same as has been adopted universally in the nursery industry, is as follows; That while we exercise the greatest care to have every tree or plant true to name and are ready, on proper proof, to replace free of charge or refund the money paid for anything sent out by us that may prove untrue to label, it is understood and agreed, between the purchaser and ourselves that we are not to be held liable for any greater sum than that paid us for said trees that may prove untrue.

The Living of Trees and Shrubs is largely dependent upon conditions of soil, weather and after care beyond the nurseryman's control; therefore, we do not guarantee any stock to live after leaving the nursery in good condition. If in any instance stock is found to be unsatisfactory on arrival from causes over which we have control, please notify us within 10 days of its arrival and we will, under proper proof, replace with satisfactory stock or return amount paid.

However, it is distinctly understood and agreed that we are not to be held responsible for damage occurring to stock after we have delivered same in good condition to the transportation companies, for the care of same is then beyond our control, but we will do all in our power to guard against and to prevent any injury occurring.

Prices and Shipping— The prices given herein will not necessarily prevail where personal selection of SPECIMEN plants is made at the nursery. We will prepay transportation charges on orders of \$5 or over for deciduous fruit and nut trees, berry plants, rose bushes and deciduous, bare root, flowering shrubs in Oregon and Washington. This offer

does not include Evergreen trees and shrubs which are dug with a ball of earth.

Terms of Payment— Our business is operated on a strictly cash basis. Customers will please forward remittance with order where immediate shipment is desired. No order for stock will be shipped C. O. D. unless accompanied by one-third of the amount. Send Post Office or express money order, bank draft or check.

Just a friendly word of information on our methods of producing fine quality, true-to-name fruit and nut trees. We operate a modest size business comprising about 20 acres of which the owner selects and cuts every foot of propagating wood from the finest types of heavy bearing orchard trees here in Lane County. Our propagator with 25 years nursery experience takes care of the budding and grafting. With only two of us handling this end of the work, you can readily see that there would be small chance for mistakes to be made in our nursery. We are starting our 26th year in the nursery business in this county.

WOODRUFF'S Cash Nursery
ROUTE No. 1 EUGENE, OREGON

APPLES

Summer Varieties

RED ASTRACHAN

Large, crimson, very productive.

YELLOW TRANSPARENT

Rich transparent yellow; juicy, sub-acid.

GOLDEN SWEET

Flesh very sweet, good, of moderate quality.

Autumn Varieties

GRAVENSTEIN

The common sort striped deep red and orange. Tender and crisp. Fine flavor.

RED GRAVENSTEIN

A sport of the above, solid red in color. Slightly more tart in flavor.

KING

Red striped, very large. Vigorous and productive.

STEWART SEEDLING

Fruit large, deep red color, ripens after Gravenstein. Keeps fine, quality of the best.

WAXEN

Medium size, pale yellow, sub-acid, good.

Winter Varieties

GRIMES GOLDEN

Transparent golden yellow. Fine for making sauce, pies or dumplings.

JONATHAN

A fine dessert apple, medium size and beautiful.

NORTHERN SPY

Striped red, sub-acid, tender and juicy.

RED SPY

A sport of the above, solid red in color.

ORTLEY

Large, conical shaped, yellow. Fine dessert variety.

RED DELICIOUS

These are the same quality as Delicious and are a solid red, large size apple.

RED ROME BEAUTY

A sport of the common Rome Beauty but much darker red. Excellent for baking.

SPITZENBERG

Brilliant red with gray dots, popular for dessert.

VANDERPOOL RED

Bright red color, fine flavor. One of the best keepers.

Yes! We Grow Our Own Stock

WINTER BANANA

Golden - yellow usually shaded with red blush.
Fine flesh.

YELLOW DELICIOUS

Produce heavy crops of fine quality. Bear young.

YELLOW NEWTON

Greenish-yellow. One of the best quality eating apples.

We grow the following varieties in limited quantities for experimentation. We have not had an opportunity to see them fruiting. Early McIntosh, Sweet McIntosh, Macoun, Patton Greening, Rainier.

Crab Apples

RED SIBERIAN

Small, light red; fine flavor, excellent for preserving.

SHIELDS

A very fine variety for home use.

TRANSCENDENT

Largest of the Crabs, striped red.

Apricots

TILTON

One of the largest, somewhat heart-shaped. Very fine flavor, sweet and juicy.

Cherries

BING

Black. A fine shipping and market variety.

BLACK REPUBLICAN

Medium size, sweet with purplish flesh. This variety is a proven pollenizer for our strain of Royal Ann.

KENTISH

A pie cherry. Early, light red, medium size, acid flavor.

LAMBERT

Large size and fine quality dark purplish red.

LATE DUKE

A pie cherry. Large, light red, late and fine.

MAY DUKE

A pie cherry. An excellent variety that ripens in June.

MONTMORENCY Large

The best commercial sour cherry. Fruit is large, bright red, very productive.

ROYAL ANN

The best known Pacific Coast cherry. We make the claim that our Royal Anns when planted with its proven pollenizer offers the highest fruit production of anything now on the market. In a

Thousands of Trees, All Sizes, All Varieties

24 year test under the personal observation of the present owner, the parent tree of our stock has yielded from 8 to 17 orchard boxes of fruit per year, with no failures. The 1936 crop was 473 pounds of good grade cherries which was highly satisfactory in view of the very light set of Royal Ann in other orchards.

WATERHOUSE

An effective pollenizer. Has some commercial value as a canner.

Our 1936 crop of Peach trees ranging from 4 to 7 feet tall. This stock was budded from selected heavy bearing parent Peach trees now producing in Lane County. We believe that this block of peaches is one of the very best in vigor of growth to be found anywhere in Western Oregon.

Peaches

HALES EARLY

Flesh white, juicy, melting. High flavored. Free from stone. Early August.

ADMIRAL DEWEY

Yellow with red cheek. Yellow flesh, freestone. Very good early sort.

ARP BEAUTY

Yellow meat, red cheek. Ripens just ahead of Crawford.

ROCHESTER

One of the best flavored early ripening sorts. Rich yellow meat, deep red cheek. A popular commercial variety for early market.

SLAPPY

Fruit yellow, good bearer, excellent flavor, fine grained. Satisfactory for commercial orchard planting.

Visit Our Walnut Nursery Now

TUSCAN CLING

The earliest fine cling. Flesh juicy and of fine flavor. A good shipping and canning variety.

EARLY CRAWFORD

Yellow meat, red cheek freestone. Juicy and sweet. Midseason.

EARLY CHARLOTTE

Originated at Salem as an improved seedling of Crawford. Flesh yellow, melting and juicy. Freestone. Follows the Crawfords.

FOSTER

Large freestone. Yellow meat red cheek. Midseason.

FITZGERALD

One of the best Crawford type. Heavy annual crops of extra quality yellow meat freestone. Fruits seldom split.

GOLDEN JUBILEE

Without doubt a most valuable new peach. High colored, yellow flesh, juicy, free stone ripening about three weeks ahead of Elberta. The peach gets large with a good crop on the trees. Price 75c each.

IMPROVED ELBERTA

For Lane County conditions this variety seems to be on the road to leadership. Firm flesh, yellow meat, fine quality and above all a dependable annual cropper. It sure is an improvement.

J. H. HALE

Large size, yellow meat, red cheek, freestone. Ripens following Elberta. Commercial sort.

MUIR

Excellent producer. Yellow firm flesh. Freestone.

ORANGE CLING

Fruit medium to large, yellow with dark crimson cheek. Flesh golden yellow, rich and sugary.

LEMON CLING

Skin light yellow, reddened in the sun. Flesh is firm, rich yellow. Ripens last of September.

KRUMMEL OCTOBER

One of the latest freestone varieties and profitable for market. Flesh yellow, red at the pit.

Pears

BARTLETT

Large, clear yellow skin; buttery, very juicy and highly flavored. Leading commercial variety.

BOSC

A large pear with long neck, cinnamon-russet, half melting; juicy and delicious. Ripens after Bartlett.

BEURRE d'ANJOU

Large fine pear, buttery and melting. Valuable as a commercial variety.

FALL BUTTER

Medium size, pale yellow, with a faint blush and fine flavor.

WINTER NELLIS

Medium, yellowish-green and russet, very productive. Late winter keeper.

Plums

BLUE DAMSON

Small, roundish, purple. Excellent for preserves.

BRADSHAW

Very large, oval, dark violet red. Ripens in August.

PEACH

We offer an improved type which is superior both in quality and size. Dull red in color.

REINE CLAUDE de BAVAY **(Bavay's Green Gage)**

The best commercial canning sort. Large, greenish-yellow firm; sugary and of fine quality. Ripens in September.

SATSUMA

Fruit large, nearly round. Solid dark red color from skin to pit. A Japanese variety.

YELLOW EGG

Very large, egg-shaped; Rather acid until ripe. Good commercial canning sort.

Prunes

MILLER'S EARLY SWEET PRUNE

This fine commercial variety is undoubtedly the leader of all varieties that have been introduced in the Willamette Valley in the past 15 years. It originated as a natural cross between the Italian and French ripens at least a week earlier than Italian thus extending the harvest and drying season when weather conditions are most favorable and help more plentiful. Owners and operators of dryers in Lane County who have handled this prune are enthusiastic over the manner in which it dries and its fine sweet flavor and golden flesh. Some of these men express the belief that the Miller Early Sweet prune will gradually supplant the Italian in Western Oregon. This variety possesses the same texture of skin as the Italian and the firm golden yellow meat of the French. It holds up well and does not soften or rot soon after hitting the ground.

This picture was taken in September 1936 in a five acre planting of ten year old Miller Prune trees. The limb showing the load of fruit is an average throughout the planting.

HUNGARIAN

Very large, dark red, juicy and productive.

ITALIAN

The Oregon purple prune, well known in commerce.

NOBLE FRENCH

This variety is becoming better known. Produces extra size fruits of reddish- purple color when the crop is light. When pollenized by Petite it sets much heavier but the individual fruits are much smaller. It has a thin skin and does not hold up long after hitting the ground, therefore harvesting must be handled rapidly on this variety. Quality is excellent.

SILVER

Large, light colored, ranked as one of the best for home use.

Quinces

CHAMPION

A good variety for home use.

Almonds

DRAKES SEEDLING

Bears abundantly and is recognized as a pollenizer for other varieties.

Visitors Always Welcome

GRAFTED FRANQUETTE ENGLISH WALNUTS

LOCAL VARIETIES

We have two unnamed sorts that are the most dependable for producing in Lane County.

Chestnuts

COLOSSAL

Large nut, fine flavor. A valuable commercial variety.

CASTIVA

Free from infold of pelicle. Bears well. Nuts large.

Filberts

Western Oregon is becoming famous for its production of fine crops of filberts. The soil condition and particularly the climate seems to be well suited to their production. The varieties that have become established as the leaders for planting in the Northwest are as follows:

BARCELONA

Heavy crops of round, free husking nuts, medium to large size. Best known commercial sort.

BRIXNUT

Produces crops of large size nuts, free husking. The tree requires substantial winter pruning for the first four or five years to attain a strong, upright growing tendency.

DU CHILLY

Large, oblong, rather flat shaped nuts of excellent quality. Favored in Western Washington.

CRESWELL

Small to medium round, free husking nut. Very effective as pollenizer for Barcelona.

DAVIANA

Shy producer of oblong nuts but is very effective as a Barcelona pollenizer.

HALL'S GIANT

Large, round brown nut which is a pollenizer for Brixnut.

Gooseberry and Currants

Our new large, Red, Poorman Gooseberry should be in every home garden. Simply delicious when left on the bushes to ripen. Excellent for canning. We also have the Oregon Champion gooseberry which is the standard commercial variety.

In Currants we offer the pure strain Perfection and a variety known here as the Holt. Both are fine large Red fruits.

Grapes

BLUE VARIETIES

Concord, Campbell's Early, Cottage, Early Daisy, Hartford, Worden.

Visit Our Floral Gardens April to June

RED VARIETIES

Agawam, Delaware Red, Lucille, Lutie, Massasoit, Wyoming.

WHITE VARIETIES

McKinley, Niagra, Thompson Seedless.

The New Boysenberry

This sensational new berry will produce heavier crops of much larger berries than will the Youngberry or any Blackberry. Berries size up to 1½ inch long and an inch through. Experience so far proves them to be sufficiently hardy for weather conditions in the Northwest. The average number of berries in a pound of Boysenberries will range from 55 to 65 while the average range in a pound of Youngberries was 90 to 100. This gives you an idea how large these berries really are. Planting of strong tip root plants is recommended for spring usually in March. Price 25c each; \$2 per 10. Special prices for hundred or thousand lot orders.

Broad Leaved Evergreen Trees and Shrubs

The great beauty of the broad leaved evergreens make them most valuable for gardening purposes. Many are among our most spectacular and gorgeous flowering shrubs, while their broad attractive leaves show out most effectively during the parts of the year when many trees and plants are without foliage. There is practically no end to the charming results that can be obtained by the liberal use of this class of plants.

ABELIA

Delicate pink flowers, blooms August to October. 18-24 inch 65c; 24-30 inch 80c.

ANDROMEDA

Hardy, dwarf, white flowers like Lily of Valley. 6-9 inch 75c; 9-12 inch 90c.

ARALIA Japan

Like rubber plants. Valuable for tropical effects. Six year plants \$1.50 each.

ARBUTUS Unedo (Strawberry Tree)

Large handsome shrub or small tree with excellent foliage, attractive, striking red or orange fruit; drooping white bell-shaped flowers. 9-12 inch 90c; 15-18 inch \$1.25 each.

AZALEA Japan

Dwarf habit. Bright scarlet and salmon pink. Useful in rockeries and borders. 6-8 inch 75c; 8-12 inch \$1 to \$1.25.

AUCUBA (Gold Dust Laurel)

Glossy spotted yellow leaves. Very resistant to cold. 15-18 inch \$1; 18-24 inch \$1.25; 24-30 inch \$1.50.

Our Peonies Bloom in May and June

BARBERRY

Darwini

Orange yellow flowers followed by Blue berries. 12-15 inch 50c; 15-18 inch 75c; 18-24 inch \$1.

Dulcis Nana

Dwarf type, fine for low borders. Yellow flowers. 6-9 inch 45c; 9-12 inch 60c.

Gagnepainii

Another new Chinese species that is proving satisfactory. Narrow tapering wedge shaped leaves. Distinct habit of growth. 24-36 inch \$1 to \$1.25.

Stenophylla

Small deep green leaves, handsome yellow flowers. 18-24 inch \$1; 24-36 inch \$1.50.

Verruculosa

Also a Chinese introduction that is promising. Compact form, deep green leaves. 12-15 inch 90c.

BOX

True Dwarf Boxwood

Very slow growing, valuable for low edging. 5-7 inch 25c each; \$2 per 10; 8-10 inch 75c each; 12-15 inch \$1; 15 inch up \$1.25 each.

True Tree (Sempervirens Arborescens)

Small deep green glossy foliage. An excellent and well known hedge plant. 8-10 inch 50c each; 12 inch up 75c; 15 inch up \$1.

Rotundifolia

Broad oval leaves spreading compact growth, usually remains lower than the type. 18-24 inch specimens \$1.50 to \$2.

BROOM

Kewensis Purgens

Dwarf yellow. A mass of golden flowers. Fine for pool or rockery planting. 9-12 inch 65c.

Praecox (Warminster Broom)

Flowers rich cream in color, completely covering branches. Quite rare and very attractive shrub. 12-15 inch 65c.

Spanish

Fragrant yellow flowers, late summer and fall. 2-3 ft. 75c; 3-4 ft. \$1; 4-6 ft. \$1.50.

Camellia, Japonica

Red and pink flowers in February. Waxy dark green foliage. 24-30 inch \$3; 36-42 inch \$4.

COTONEASTER

Franchetti

Graceful, droopy, red berries in winter. Fine for informal hedges. 3-4 ft. well filled, very bushy \$1.25 each. 4-6 ft. very bushy \$1.50 to \$2.

Horizontalis

Red berried trailing shrub for terrace planting and rockeries. 18-24 inch spread 75c; 24-30 inch \$1.

Dammeri (Humifusa)

Most prostrate of trailing types. 6-9 inch 50c.

Parnayi

New variety, crimson berries, dark green foliage. 15-18 inch 75c; 24-30 inch \$1.25; 36-42 inch \$1.50.

Salicifolia

Tall growing, willow like foliage retaining its leaves most of winter. 2-3 ft. 75c; 3-4 ft. \$1.

DAPHNE

Cneorum

Dwarf, deep pink flowers 6-9 inch \$1.

Odora (Marginata)

Fragrant pink flowers in late winter. 9-12 inch \$1; 12-15 inch \$1.40; 15-18 inch \$1.75 each.

Escallonia

Deep red tubular flowers with shining dark green leaves. Dense and compact. 12-15 inch 75c.

FIRETHORN Pyracantha

Crenulata

Fine foliage, scarlet crimson berries. 18-24 inch \$1; 24-36 inch \$1.50; 36-48 inch \$2.

Lalandi

Tall growing, dark green leaves, orange berries. 3-4 ft. \$1; 4-5 ft. \$1.25; 5-7 ft. \$1.50.

Yunnanensis

Very beautiful variety with scarlet berries. 15-18 inch 75c.

Heath, Corsican, Erica Stricta

Upright growth. Pale lavender purple flowers summer and fall. 9-12 inch 50c.

HEATHER

Irish Belle

Attractive purple blossoms fall blooming. 6-9 inch 40c.

Med. Dwarf Hybrid

Lovely masses of lavender pink blooms all winter. 6-9 inch 40c; 9-12 inch 60c; 12 inch up 75c.

Scotch

The new red, blooming in late summer is fine for rockery. 6-9 inch 50c.

HOLLY

English

Our strain produces immense crops of berries of large size. Foliage lustrous, dark green. The parent tree of all our stock was planted in Eugene spring 1910 and has produced prolific crops of berries without failure since 1915. Trees sell by height. We have all sizes at 75c per foot.

French

We offer a heavy bearing strain propagated from a famous orchard in the Puget Sound region. For planting commercial acreage this variety would be recommended. Priced at 75c per foot.

Honeysuckle, *Lonicera Nitida*

Small shiny green foliage. Responds to pruning. 15-18 inch 60c; 18-24 inch 75c.

LAUREL

English

Large shiny leaves, fine for hedge planting or as specimens. Two year 9-12 inch 35c; 12-15 inch 40c; 15-18 inch 50c; 24-30 inch \$1; 30-36 inch \$1.25; 36-48 inch \$1.50 to \$2 each.

Portugal

Compact, dark green foliage, very hardy. Best of the Laurels for bloom. 9-12 inch 50c; 12-15 inch 65c; 15-18 inch 75c; 18-24 inch \$1.50; 24-30 inch \$2; 30-36 inch \$2.50.

Dwarf Laurel

Glossy foliage, compact growth, leaves much smaller than on English. Effective for growth up to four feet. 9-12 inch 50c; 12-15 inch 65c; 30-36 inch \$2 each.

Zabells Laurel

Grows four to five feet high, wide spreading and is covered in the spring with large spikes of white scented flowers. Foliage rich glossy green unaffected by cold or dry weather. 12 by 15 inch 75c.

LAURESTINUS

Blooms late winter and spring, redish-pink buds opening to flat clusters of white flowers. 15-18 inch 75c; 18-24 inch \$1; 24-30 inch \$2.

MAGNOLIA, Southern, *Grandiflora*

Large white blossoms, sweet scented. Tree form. 3-4 ft. \$2.50; 4-6 ft. \$3; 6-8 ft. \$5 to \$7.50 each.

MEXICAN ORANGE, *Choisya Ternata*

Glossy foliage, fragrant white flowers. 12-15 inch 75c; 18-24 inch \$1.25.

NANDINA, *Domestica* (Heavenly Bamboo)

White flowers, scarlet berries. Leaves turn red in fall. 9-12 inch 50c; 12-15 inch 75c; 15-18 inch \$1.

OREGON GRAPE, *Mahonia Aquifolia*

Dark glossy foliage, yellow flowers, blue berries. Fine for hedges or informal plantings. 12-15 inch 75c; 15-18 inch 85c; 18-24 inch \$1.

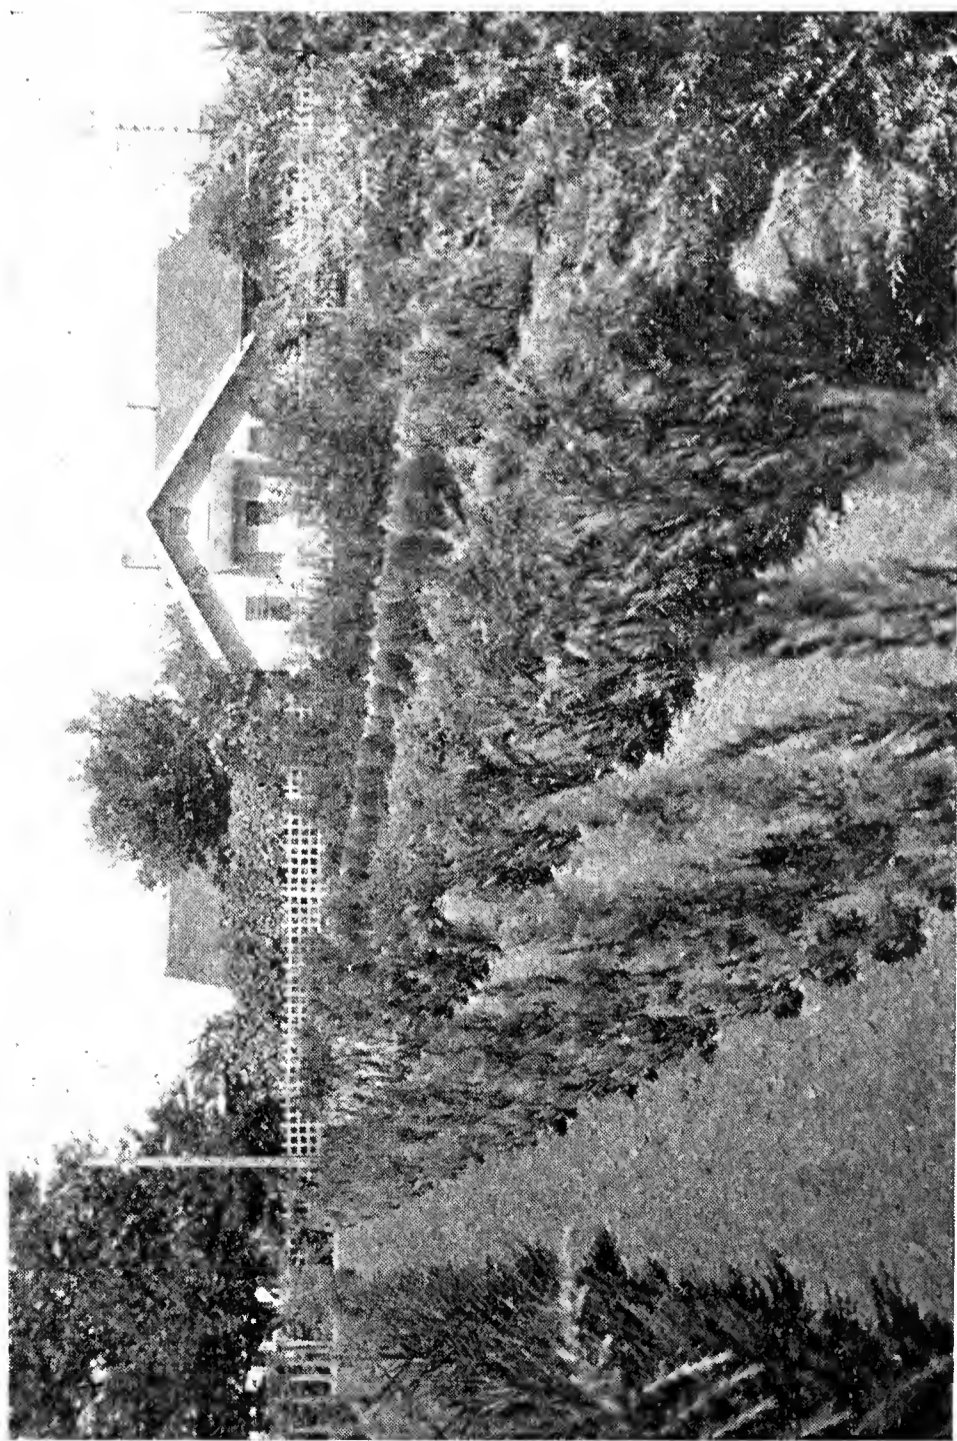

PHOTINIA, *Serrulata*

Dark green glossy leaf. Fall and winter coloring of foliage is brilliant. Tips of new foliage in spring and summer are fiery red. 12-15 inch 75c; 15-18 inch \$1; 18-24 inch \$1.25. Large Specimen \$2.50.

PALM, Chinese Windmill

The only variety that is sufficiently hardy to warrant outdoor growth in Western Oregon. Will stand down to zero temperatures quite successfully. 15-18 inch \$1.50; 18-24 inch \$2.

Roses Give Maximum Satisfaction

A thriving block of young four year old evergreen trees. We keep a large assortment of varieties to fit growing conditions East of the Cascades as well as for Coast weather and soil. Personal inspection where possible affords you an opportunity to compare quality in stock.

PRIVET (Ligustrum)

Golden Variegated

Fine foliage foil when planted with green leaf types. Very popular. 24-30 inch 75c; 5-6 ft. \$1.50 to \$2.

Chinensis

Tall growing, fine lacy leaves, small clusters of white flowers. Excellent for background screens or hedges. 15-18 inch 50c; 18-24 inch 65c; 36-48 inch \$1.50.

California

Bright green foliage rapid growth makes it an ideal hedge type. Specimen sizes 18-24 inch 60c; 24-36 inch 75c; 36-48 inch \$1. For two year hedge size plants 20c each. \$1.50 dozen; \$5 per 50 or \$8 per 100.

Lodense

Dwarf type, dark green foliage, compact growth. 9-12 inch 30c; 15 inch bushy 50c; 18 inch 65c.

Wax Leaf, Lucidum

Dark waxy green leaf, blue berries. 12-15 inch 50c; 18-24 inch 75c.

RHODODENDRONS

Hybrid Grafts

Various shades of pink, also scarlet and crimson. Sizes range from 18 to 42 inches. Priced from \$3.25, \$4 and \$5 each.

Hybrid Seedlings

Mostly lavender pink in color. 12-15 inch \$1.25 15-18 inch \$1.50.

VERONICA

Small, light green shrub of upright compact habit. 9-12 inch 50c.

VIBURNUM, Davidi

Evergreen snowball grows to three feet. White flowers in June. Blue fruit. 6-12 inch 75c.

Conifer Evergreen Trees

This class of evergreen trees forms one of the most valued assets of the ornamental garden. They are very largely used as lawn specimens or in the border as well as for accent points in the foundation planting. The many interesting shades of color to be found in this family can be enjoyed throughout the entire year.

ARBOR VITAE (Thuya)

Berckman's Dwarf Golden

Useful for color effect and habit of growth. 9-12 inch 75c; 12-15 inch \$1; 15 inch up \$1.25.

Bonita

Rich dark green, broad cone shape. 12-15 inch \$1; 15-18 inch \$1.25; 18-24 inch \$1.50.

Daly Nana

Good bright green dwarf form. 18-24 inch \$1.50.

Visitors Always Welcome

American Pyramidal

Rich green foliage, slender growth. 24-30 inch \$1.25; 30-36 inch \$1.50; 36-48 inch \$1.75; 48-60 inch \$2.50. Specimen sizes on hand.

Oriental Pyramidal

Long ovate form, bright green foliage. 18-30 inch \$1.25; 36-48 inch \$1.50.

Rosedale Hybrid

Gray-green foliage with new growth in early season a lovely light ivory-cream. 24 inch \$1.50; 30-36 inch \$1.75.

Rosenthal

Slender columnar habit, deep green foliage. 12-18 inch 75c; 30-36 inch \$1.50.

Woodward

Dense globosa form, deep green foliage. 12-15 inch 75c.

CEDARS (Cedrus)

Himalayan Cedar, Deodara

Feathery silvery blue foliage. A beautiful tree for the lawn 18-30 inch \$1 to \$1.25; 30-36 inch \$1.50; 36-48 inch \$2 to \$2.50; 48-72 inch \$3 to \$4.

Mt. Atlas, Atlantica

Steel blue in color, broadly pyramidal in shape. 6 foot specimens ten years old \$8.

Incense Cedar

An open pyramidal form rich green foliage. 24-30 inch \$1.25; 36-42 inch \$1.50.

CRYPTOMERIA Elegans

Broad dense tree soft dainty foliage. The bright green turns to bronze in fall. 12-15 inch 75c; 18-24 inch \$1; 24-30 inch \$1.25; 30-36 inch \$1.50.

CYPRESS (Cupressus)

Erect Blue Lawson

Compact and columnar metallic blue. 15-18 inch 75c; 18-24 inch \$1; 24-30 inch \$1.25; 30-36 inch \$1.40; 36-48 inch \$1.75; 48 inch up \$2.

Birdnest

Low spreading for rockery or pool planting. 9-12 inch \$1; 12-15 inch \$1.25; 15-18 inch \$1.50 18-24 inch \$2.

Erect Green Lawson

Compact pyramidal form, bright green, very fine soft foliage. 15 inch 75c; 18 inch up \$1; 24 inch up \$1.25; 3-4 ft. \$2.50 to \$3; 4-5 ft. \$3 to \$3.50; Specimens 5 ft. and over \$4 to \$10.

Golden Lawson

Pyramidal, compact, golden yellow. 18-24 inch \$1.25; 24-30 inch \$1.50; 30-36 inch \$1.75; 36-48 inch \$2.50.

Variegated Lawson

Feathery, creamy-white tips and branches. 3-4 ft. \$1.50; 4-5 ft. \$2.

You Never Tire of Evergreen in Winter

Wissel Cypress

Dark bluish green foliage, growing in twisted tufts or whorls and of upright growth. Its unique appearance makes it an interesting subject. 15-18 inch \$1; 18-24 inch \$1.25; 24-30 inch \$1.50; 30-42 inch \$2.

Arizona Cypress

Silvery blue foliage, rapid growth, lacy-like appearance. 24-30 inch \$1; 3-4 ft. \$1.25 to \$1.50; 4-6 ft. \$2 to \$3.

FIR (Abies)

Concolor

Pyramidal growth, compact, silvery green color. Excellent for bordering drives or for screen effects. Large specimens 8 to 12 ft. Prices on application.

JUNIPER (Juniperus)

Procumbens, Chinese Creeping

Clings close to the ground, rocks or walls, Height 10 inches. Foliage needle-like, gray-green in color. 30-36 inch \$1.50 to \$2.

Armstrong's Spreading Juniper

It makes a dense mass of soft, grey-green foliage about two feet high and becoming five feet across. 18-24 \$1.50; 24-30 inch \$1.75.

Cupressifolia

Spreading, ground cover type dark green Cypress-like foliage. 3-4 ft. \$2 to \$2.50.

Irish, Hibernica

We grow the narrow, erect type like the Italian Cypress. Gray-green in color. 3-4 ft. \$1.25; 4-5 ft. \$1.50.

Pfitzer's Chin

Lovely semi-prostrate type, blue-green foliage. Rapid grower. 15-18 inch \$1.25; 18-24 inch \$1.50; 24-30 inch \$2; 36-48 inch \$2.50.

Spiny Greek

Low, pyramidal, grows in the form of an almost perfect cone, Color silvery-blue. 12-15 inch 75c; 15-18 inch \$1; 18-24 inch \$1.25; 24-30 inch \$1.50; 30-36 inch \$2.

Tamarix Savin

Color a bright, cheerful green throughout the year, Compact in form and growth, not over 18 inches high. 9-12 inch \$1; 15-18 inch \$1.50.

Meyer Juniper

The outstanding feature of this interesting tree is the brilliant coloring, being a bright shining blue. Can be trimmed either upright or to spreading habit. 18-24 inch \$1.50 to \$2.

Virginiana (Red Cedar)

Tall pyramidal form. Plum tinted in winter, dense green in spring. 15-18 inch 75c; 36-48 inch \$1.50.

Most Places Can Be Improved with Shrubs

Another view taken in our nursery in September 1936. This comprises a picture of our rose bushes in the foreground which is one of the best grown in Western Oregon this summer. The sweet cherry trees back of the roses range 5 to 7 feet tall and very stocky calipered. We invite a comparison of our trees and plants, both as to roots and top growth with anything being offered in competition.

Waukegan

Chief point of merit of this creeper is the color, a delicate blue in the summer changing to a pleasing purplish tint in the winter. 12-15 inch \$1.

PINE (Mugho)

Dwarf, densely branched. Valuable for rock gardens and any place where a small hardy conifer is needed. 15-18 inch \$1.25; 18-24 inch \$1.75; 36 by 48 inch \$5.

RETINOSPORA Japan Cypress

Thread branch variety is semi-dwarf with tips drooping. Excellent for rock garden or pool planting 18-24 inch \$1.50; 24-30 inch \$2; 30-36 inch \$2.50.

SEQUOIA GIGANTEA (The Big Tree)

The famous giant of the Sierras, the oldest and largest of living things. A sturdy pyramid with blue-green foliage. 2-3 ft. \$1.50; 3-4 ft. \$1.75.

SPRUCE (Picea)

Colorado Blue

Wonderful silvery-blue tree of pyramidal growth. Slow growing. 30-36 inch \$5; 3-4 ft. \$6; 4-5 ft. \$7.50 to \$10.

Norway Spruce

Green, dense, rapid growing and very hardy. Valuable for backgrounds or border planting. 30-36 inch \$1.50; 3-4 ft. \$1.75 to \$2; 5-6 ft. \$3 to \$4. 6-8 ft. \$5 to \$7.50.

YEW (Taxus)

Baccata Erecta

The Broom Yew of narrow compact columnar habit. 18-24 inch \$1.50; 48-54 inch \$4; 54-60 inch \$5.

Dovaston

Broad spreading, vase shaped one of the best bush types. 12-15 inch \$1.25; 15-18 inch \$1.50; 18-24 inch \$2.

Irish, Hibernica

Slow growing, columnar, dark green. Coral Red fruits. 24-30 inch \$3; 30-36 inch \$3.25; 36-42 inch \$3.75; 48-54 inch \$5.

Washington Yew

Bushy, wide spreading, golden shading on the leaves. 18 inch \$2; 24 inch \$2.50.

Deciduous Ornamental Trees

AILANTHUS, Tree of Heaven

Native of Asia and Australia. Rapid growing tree to 60 foot height. Attractive foliage. 3-4 ft. 50c.

BIRCH, European White

5-6 ft. 75c; 6-8 ft. \$1; 8-12 ft. \$1.50 to \$2.

BIRCH, Cut Leaf Weeping

4-6 ft. \$1; 6-8 ft. \$1.50; 8-12 ft. \$2.

Visitors Always Welcome

BOX ELDER, Silver Variegated

4-5 ft. \$1.

CATALPA, Speciosa

Very large leaves. Large flower clusters in mid-summer. 30-36 inch 50c.

DOGWOOD, Pink Flowering

Colorful small ornamental tree. 18-24 inch \$1.50; 24-30 inch \$2. White Flowering \$1 to \$1.50.

CRAB, Bechtel Double Flowering Pink

One of the best. 2-3 ft. 50c.

CHERRY, Japan Flowering

Upright growth, flowers pink or white. Five varieties. 3-4 ft. 75c; 4-6 ft. \$1.

JAPAN CHERRY, Weeping

Pink flowering. 6-8 ft. 2 year heads \$2 to \$3 each.

White flowers in terminal panicles all summer. 4 year \$1.

WISTERIA, Multijuga

Longcluster and free blooming. Grafted stock in purple and pink. 4 year \$1.25.

DISTANCES RECOMMENDED FOR PLANTING

Apples	25 to 35 feet each way
Cherries, sweet	25 to 35 feet each way
Cherries, sour	20 to 25 feet each way
Peaches	22 to 25 feet each way
Pears	22 to 25 feet each way
Plums	22 to 25 feet each way
Apricots, Almond	22 to 25 feet each way
Filberts	25 to 30 feet each way
Walnuts	40 to 60 feet each way

Blackberries	6 ft. x 4 ft.
Raspberries	6 ft. x 3 ft.
Currants	5 ft. x 3 ft.
Gooseberries	5 ft. x 3 ft.
Grapes	8 x 8 to 10 x 12 ft.
Strawberries	3½ x 1½ ft.
Asparagus	5 ft. x 1½ ft.
Rhubarb	5 ft. x 3 ft.
Boysenberries	8 ft. x 10 ft.

NUMBER OF PLANTS PER ACRE AT VARIOUS DISTANCES

In planting trees the greater distance should be given in the richer soils

Distance Apart	Square Method	Trian- gular
1 foot apart each way	43560	50300
4 foot apart each way.....	2722	3143
6 foot apart each way	1210	1397
10 foot apart each way	435	502
15 foot apart each way	170	196
16 foot apart each way	193	222
20 foot each way	108	125
22 foot each way	90	104
25 foot each way	70	81
30 foot each way	48	55
40 foot each way	27	31
50 foot each way	18	21

Visitors Always Welcome

One of the very fine young peach orchards owned by Chester Chase on the McKenzie. Our trees after five years growth.
